

Quality & Environmental Policy

POLICY ON INTEGRATED MANAGEMENT

Mantek Manufacturing Ltd design, develop and manufacture seals and custom mouldings and supply standards based seals, gaskets and industrial products.

Operating an integrated management system means we seek to incorporate Health & Safety, Quality and Environmental considerations into our day to day activities. Working within the framework of international standards ISO 9001 (Quality) and ISO 14001 (Environment) we strive to improve the products and service that we offer to our customers whilst seeking to protect the environment.

Key areas of focus where we wish to attain the highest levels include:

- Ensuring all relevant regulatory and industry requirements are identified and complied with.
- Assessing and managing risks related to the health safety and welfare of employees and visitors.
- A commitment to manage activities to protect the environment
- To reduce significant aspects of resource use and waste including utilising the waste hierarchy ie Reduce, Reuse, Recycle and considering a lifecycle perspective.
- Developing partnership programmes with customers, suppliers, employees and other interested parties in order to effectively manage our activities and communications.

Our objectives are focused on setting realistic targets for improvement supported by programmes to manage actions. We will review, monitor and where needed seek to improve our performance. This is to ensure we continually improve our management system, the experience of our customers and our business performance.

Signed: Chris Mandell
Managing Director
